PROFESSIONAL EXPERIENCE

Smart Vision for Information Systems | Abu Dhabi, UAE

Feb 2023 - Present

Senior Software Developer

- Develop and maintain enterprise Time Attendance and workforce applications using C#, ASP.NET Web Forms, ASP.NET Core Web API, SQL Server, JavaScript, IIS, and Crystal Reports.
- Design and extend REST and GraphQL APIs for integrations with Oracle Fusion, SAP SuccessFactors, Microsoft Dynamics GP, and client HRMS platforms.
- Maintain and enhance legacy enterprise modules, including AngularJS-based eAsset functionality, while troubleshooting production defects, performance issues, and client-specific workflows.
- Develop and optimize stored procedures, validation logic, reporting datasets, exports, and data-processing workflows; implement Azure AD SSO and JWT-based authentication.
- Work across requirements analysis, implementation, debugging, deployment, production support, security remediation, and continuous enhancement of business-critical systems.

Technopack | Damascus, Syria

Jan 2016 - Nov 2022

Senior Software Developer

- Designed and built an enterprise Intranet Portal using ASP.NET MVC, Bootstrap, jQuery, Umbraco CMS, and SQL Server, replacing a legacy Web Forms portal.
- Developed modules for HR, Time Attendance, Maintenance, Purchasing, Performance Evaluation, Pricing, Sales, Shipping, Warehousing, Production, and Bonus Calculation.
- Built backend business logic, stored procedures, reusable data-access components, SSRS/RDLC reports, and dashboards using data from BVP ERP and OMP MES systems.
- Worked directly with business departments to gather requirements, analyze workflows, train users, and deliver production support and enhancements throughout the SDLC.

Azmeh Paints | Damascus, Syria

Apr 2006 - Apr 2015

Software Developer

- Co-developed a full internal ERP system using C#, .NET Framework (Windows Forms), and SQL Server, including database-driven business logic and stored procedures.
- Built a dynamic workflow and permission engine supporting user roles, form-level access, departmental approvals, reusable forms, and reporting components.
- Developed SSRS management reports and provided long-term application support, troubleshooting, documentation, user training, and continuous improvements.

SELECTED PROJECT

Arwad Platform | In Progress

- Designing and building a modular .NET application and CMS platform with ASP.NET Core MVC runtime, WinForms-based visual studio, plugin architecture, reusable controls, dynamic data-source integration, security/backoffice features, and extensible runtime services.
